

Majestic Concrete Cleaner & Conditioner

Concrete Cleaner & Conditioner is a unique combination of natural compounds which react with calcium present in concrete and terrazzo floors to form an insoluble dirt repellent barrier. It helps prevent water borne dirt from penetrating the surface pores of the concrete and facilitates cost effective routine maintenance. Suitable for use on all concrete and terrazzo that have no coatings present. Concrete Cleaner & Conditioner is a mild cleaner designed specifically for safe routine maintenance of concrete and terrazzo floors.

For Use On: All uncoated concrete and terrazzo floors.

Available Sizes: Gallon, case of 4 gallons, 5 gallon, 55 gallon drum

Product Features:

- Highly concentrated
- No rinse cleaning
- Great for automatic equipment
- Cleans and protects
- Helps develop a rich patina

THOROUGHLY TESTED

Directions:

Dilute 1-2 oz. per gallon for hand applications and 1 oz. for automatic machine applications. Mop or auto-scrub using Concrete Cleaner & Conditioner solution to clean surfaces. Replace solution in bucket often to avoid reapplying dirt.

Allow solution to dry. Do not rinse as this would remove the beneficial treatment.

Floor can be optionally buffed with a white pad to increase shine.

Regular use will enrich the patina or polish of the floor and optional buffing with a white pad will increase shine. Use of Majestic PLP Diamond Impregnated Pads may help keep polish bright in traffic areas.

In areas of hard water it may be necessary to increase concentration.

For heavily soiled areas and on a quarterly basis use Deep Cleaning Stripper/Degreaser to remove any buildup and clean out automatic equipment.

For coated floors, use Majestic No-Rinse Neutral Cleaner.
