

Majestic Marble Spray Polish Crystallizer

Majestic Marble Spray Polish Crystallizer is an economical and effective marble polish for use on all calcium-based surfaces. Ideal for maintenance of polished stone and restoration of worn or etched areas. Available for both light and dark stone.

For Use On: Marble, terrazzo, travertine and other calcium based stones. Always test a small area to check for desired outcome.

Available Sizes: Quart, gallon

Coverage: 2,500 sq. ft./gallon initial application, 15,000 sq. ft./gallon maintenance.

Product Features:

- Enhances the look of your stone surfaces
- Restores the natural shine to your marble floors
- Restores worn or etched areas

THOROUGHLY TESTED

Directions:

Before first use - Protect adjacent areas with chemical resistant or plastic cover. Clean the floor to remove all traces of wax and sealers with Majestic Deep Cleaning Stripper Degreaser. Scrub grout lines to remove all residue. Allow floor to dry completely before polishing.

1. Shake floor polish and fill the spray bottle.
2. Place clean steel wool pad under floor buffer. As pad becomes wet and loaded with polish, turn it over or change pads.
3. Spray 3 or 4 squirts of polish onto the floor and buff with a side-to-side motion until dry. Apply polish in a 3'X 3' section. Buff to desired shine.
4. After polishing, buff the corners by hand with a small steel wool pad to remove residue and even out the shine.
5. Sweep with a clean dry dust mop, to remove polish residue and shavings.
