

Majestic Stain Poultice

A professional grade poultice to safely and effectively remove deep stains from stone surfaces.

For Use On: All natural stone surfaces. Always test a small area to check for desired outcome.

Available Sizes: 1.5 lbs., 3 lbs., 10 lbs.

Coverage: 3 sq. ft./lb. - depending on the stone.

Product Features:

- Simple and effective stain removal
- Comes with easy to use Stain Removal Basics guide
- Easy-to-use

THOROUGHLY TESTED

Directions:

Protect all adjacent surfaces with masking film or plastic.

1. Remove all waxes and finishes using Majestic Deep Cleaning Stripper Degreaser. If the surface has been "crystallized", the consequent build-up must be ground off by using either light or heavy grinding tools, according to the situation (extent of the build-up, "lippage", etc.)
2. Mix Stain Poultice to a peanut butter like consistency and apply to area moistened with cleaning agent two inches larger than the stain and 1.2" to 2" thick.
3. Cover Stain Poultice with plastic masking film and tape outer edges to seal. Allow to stand for 24 - 48 hours or until Stain Poultice is completely dry.
4. After Stain Poultice is completely dry, remove poultice and clean area with fresh water to remove any residue.
5. Re-apply as necessary.
