

RSR-2000 Rust Stain Remover

Item #ALPHA-RSR2000-14

Description: Alpha RSR-2000 Rust Stain Remover is specially formulated to work extremely fast. In most cases, RSR-2000 will completely remove a rust stain within 5 minutes. This highly efficient product is a non-hazardous chemical that is safe and will not harm the environment.

Use On: Natural stone surfaces or other types of material such as concrete, brick, terra cotta, Mexican tile or other hard porous surfaces. Can be used in a variety of areas such as floors, countertops, vertical surfaces and exterior areas

Available Sizes: 14 oz. tube

THOROUGHLY TESTED

Directions: Clean area with Neutral Cleaner and dry with a soft cloth. Remove the cap and apply directly to the stained area, completely covering the stain. Allow to sit for 5 minutes and remove immediately with a paper towel. Clean area with Neutral Cleaner and dry with a soft cloth. Repeat if necessary until desired results have been achieved. This is a fast-acting product. If multiple applications are required, each application should be allowed to remain on surface for 5 minutes and then removed.
